

## **CHAT NOIR Training Center**

CHAT NOIR Training Center is a small complex of training rooms, laboratory, workshop and storehouse of a nation wide coffee house company.

The site located Tokyo bay area, reclaimed from the sea and developed in 80's for industries.

Landscape planning was proposed to produce a scenic roadside, strolling garden, rooms and court for trainer and trainee to keep comfortable from noise from neighboring industrial factories.

Existing asphalt paving was crushed and filled into gabion embankments and walls.

All of excavated and scraped soil which would be taken out as industrial wastes usually, also filled for garden lawn after amending with perlite, on site.

More than 25 species native plants :trees, shrubs, true grasses were added in existing roadside green belt to improve plant diversity and ecological network with bay area nature reserves.
