ENPARK (SHIOJIRI-CITY COMMUNITY CENTER)

Like living room in the Shiojiri city

Shiojiri city is the town which has 68,000 population, however one of the problems they have been faced for decade seriously is loosing bustle and full of life in the Daimon district. Empark is aimed to reclaim the town from such decline by mixing various programs which are library, community center, business support center, office, etc. 97 thin pre-casted concrete walls are composed in the random grid. These walls not only creates diverse space but also reminds of natural woods where are spreading around to the town.
