

日本建築学会教育賞 業績概要説明

業績名：木造耐力壁ジャパンカップ開催による木質構造設計の学びの場の創出

概要：「木造耐力壁ジャパンカップ」は、各チームが設計した実物大の木造耐力壁を会場で組立て、並べて設置した2体を油圧ジャッキで繋いで綱引きさせる対戦イベントである。受賞者らが中心となって20年間に渡って開催し続け、木質構造設計を実践的に学ぶ場を多くの学生や木造建築技術者に提供してきた。

英文業績名：Creating opportunities to learn wooden structural design by hosting the Wooden Shear wall Japan Cup

英文概要：

“Wooden Shear wall Japan Cup” is a competition event in which a full size wooden shear wall designed by each team is assembled at the venue, and two walls installed side by side are connected by a hydraulic jack and tug of war. The winners had continued the event for 20 years, and had provided many students and wooden construction engineers a place to learn timber structural design in practice.
